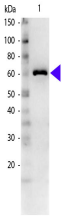
Product Datasheet

BOVINE SERUM ALBUMIN (RABBIT) Antibody
GRP2799

Description	Anti-BOVINE SERUM ALBUMIN (RABBIT) Antibody
Species/Host	Rabbit
Reactivity	Bovine
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1 mg/ml
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Anti-Bovine Serum Albumin antibody was produced by repeated immunizations with bovine serum albumin.
Uniprot ID	**P02769**
Entrez	**891**
Dilution Range	ELISA: 1:20,000 - 1:100,000,Immunochemistry: 1:1,000 - 1:5,000,Western Blot: 1:2,000-1:10,000
Application Notes	Anti-ALB antibody is suitable for immunoblotting (western or dot blot), ELISA, immunoprecipitation, conjugation and most immunological methods requiring high titer and specificity.



WB - Bovine Serum Albumin Antibody BSA
