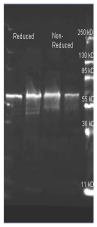
Product Datasheet

CHOLINE OXIDASE (Alcaligenes species) (GOAT) Antibody
GRP1817

Description	Choline Oxidase catalytic activity is Choline + 2 O2 + H2O = betaine + 2 H2O2. This protein is involved in step 1 of the subpathway that synthesizes betaine from choline.
Species/Host	Goat
Reactivity	Bacteria
Conjugation	Unconjugated
Tested Applications	ELISA, IP, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Choline Oxidase [Alcaligenes species]
Uniprot ID	**P16101**
Entrez	**126961**
Dilution Range	ELISA: 1:5,000 - 1:20,000,Immunoprecipitation: 1:100,Western Blot: 1:500 - 1:5,000



Anti Choline Oxidase Polyclonal Antibody-Western blot
