

## Product Datasheet

### SHEEP IgG F(c) (RABBIT) Antibody Alkaline Phosphatase Conjugated GRP5241

|                            |                                                                                                                                                                                                                                                |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | Anti-SHEEP IgG F(c) (RABBIT) Antibody Alkaline Phosphatase Conjugated                                                                                                                                                                          |
| <b>Species/Host</b>        | Rabbit                                                                                                                                                                                                                                         |
| <b>Conjugation</b>         | AP                                                                                                                                                                                                                                             |
| <b>Tested Applications</b> | ELISA, IHC-P, WB                                                                                                                                                                                                                               |
| <b>Form/Appearance</b>     | 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Glycerol; pH 8.0                                                                                                                      |
| <b>Concentration</b>       | 1.0 mg/mL                                                                                                                                                                                                                                      |
| <b>Storage</b>             | Store vial at 4 °C before opening. DO NOT FREEZE. This product is stable at 4 °C as an undiluted liquid. Dilute only prior to immediate use. Freezing alkaline phosphatase conjugates will result in a substantial loss of enzymatic activity. |
| <b>Note</b>                | For research use only.                                                                                                                                                                                                                         |
| <b>Isotype</b>             | IgG                                                                                                                                                                                                                                            |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                                                                                                     |
| <b>Source</b>              | Sheep IgG F(c) fragment                                                                                                                                                                                                                        |
| <b>Dilution Range</b>      | ELISA: 1:2,000 - 1:10,000, Immunochemistry: 1:200 - 1:1,000, Western Blot: 1:500 - 1:2,500                                                                                                                                                     |
