

Product Datasheet

STREPTAVIDIN (RABBIT) Antibody GRP2274

Description	Anti-STREPTAVIDIN (RABBIT) Antibody
Species/Host	Rabbit
Reactivity	Bacteria
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1.0 mg/mL
Note	For research use only.
Isotype	IgG
Clonality	Polyclonal
Source	Streptavidin [<i>Streptomyces avidinii</i>]
Dilution Range	ELISA: 1:200,000, Immunochemistry: 1:1,500 - 1:5,000, Western Blot: 1:3,000 - 1:12,000
Application Notes	Anti-Streptavidin antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency.

Anti Streptavidin
Polyclonal
Antibody-Western Blot
