

Product Datasheet

Fab BIOTIN (GOAT) Antibody GRP10206

Description	Fab Anti-BIOTIN (GOAT) Antibody
Species/Host	Goat
Conjugation	Unconjugated
Tested Applications	ELISA, IHC-P, WB
Form/Appearance	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Concentration	1.0 mg/mL
Note	For research use only.
Isotype	IgG Fab
Clonality	Polyclonal
Source	Biotin conjugated to Keyhole Limpet Hemocyanin (KLH)
Dilution Range	ELISA: 1:5,000,Immunochemistry: User Optimized,Western Blot: User Optimized
Application Notes	Fab Anti-Biotin Antibody is suitable for ELISA. Specific conditions for reactivity should be optimized by the end user.
