

## Product Datasheet

### Rabbit anti-Cholera toxin, B subunit, Polyclonal Antibody, Biotin GRP1361

|                             |                                             |
|-----------------------------|---------------------------------------------|
| <b>Species/Host</b>         | Rabbit                                      |
| <b>Predicted Reactivity</b> | cross reacts with E. coli heat labile toxin |
| <b>Conjugation</b>          | Biotin                                      |
| <b>Tested Applications</b>  | ELISA                                       |
| <b>Immunogen</b>            | Purified Cholera toxin B subunit            |
| <b>Note</b>                 | For research use only.                      |
| <b>Isotype</b>              | IgG                                         |
| <b>Clonality</b>            | Polyclonal                                  |
| <b>Dilution Range</b>       | >1:1,000 by ELISA                           |
| <b>Application Notes</b>    | immunoprecipitates toxin in gel techniques  |
