

## Product Datasheet

### Anti-SYK Purified GRP10405

<b>Description</b>	The antibody SYK-01 reacts with protein tyrosine kinase p72Syk (Syk; an intracellular antigen), which is required for the transduction of signals through the B cell antigen receptor (BCR) and the high affinity IgE receptor (FcεpsilonRI).
<b>Reactivity</b>	Human, Mouse, Rat
<b>Tested Applications</b>	ICC, IHC-P, IP, WB
<b>Immunogen</b>	Recombinant fragment (aa 5-360) of human Syk.
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgG1
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	SYK-01
<b>Uniprot ID</b>	P43405
<b>NCBI</b>	6050
