

## Product Datasheet

### Anti-SHIP1 Purified GRP10424

<b>Description</b>	The antibody SHIP-01 reacts with SHIP-1, a phosphoinositide phosphatase largely confined to hematopoietic cells (intracellular antigen). Multiple forms of SHIP-1 have been reported with molecular weights of 110, 125, 130, 135 and 145 kDa.
<b>Reactivity</b>	Human
<b>Tested Applications</b>	FC, WB
<b>Immunogen</b>	Peptide corresponding to a sequence within N-terminal domain of Human SHIP-1.
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgG2a
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	SHIP-01
<b>Uniprot ID</b>	Q92835
<b>NCBI</b>	3635
