

## Product Datasheet

### Anti-MAP2 Purified GRP10497

|                            |  |
|----------------------------|--|
| <b>Description</b>         | The antibody MT-07 recognizes an epitope (aa 1375-1395) located in central domain of molecule Microtubule Associated Protein 2ab (MAP2ab), an intracellular antigen. |
| <b>Reactivity</b>          | Human, Mouse, Pig  |
| <b>Tested Applications</b> | ELISA, ICC, IHC-Fr, IHC-P, IP, WB  |
| <b>Immunogen</b>           | Microtubule protein (bovine brain) enriched for kinesin  |
| <b>Concentration</b>       | 1 mg/ml  |
| <b>Storage</b>             | Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.  |
| <b>Note</b>                | For research use only.   |
| <b>Isotype</b>             | Mouse IgG1   |
| <b>Clonality</b>           | Monoclonal   |
| <b>Clone ID</b>            | MT-07  |
| <b>Uniprot ID</b>          | P11137   |
| <b>NCBI</b>                | 4133   |
