

## Product Datasheet

### Anti-Hu IgA Secretory Component Purified GRP10556

<b>Description</b>	The antibody SC-05 reacts with 80 kDa human secretory component glycoprotein (both free and bound in secretory IgA). Recognized glycoprotein is specific membrane marker of glandular carcinomas.
<b>Reactivity</b>	Human
<b>Tested Applications</b>	IHC-Fr, IHC-P, IP, WB
<b>Immunogen</b>	Affinity-purified secretory component from human colostrum.
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgG1
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	SC-05
