

Product Datasheet

Epstein-Barr virus, EBNA-1 Recombinant Antigen GRP1404

Tested Applications	ELISA
Form/Appearance	PBS, pH 7.2 + 0.1% sodium azide
Storage	2-4°C
Note	For research use only.
Purity	approx. 95% by SDS-PAGE
MW	35 kDa
Application Notes	Excellent correlation with a commercial EBNA ELISA when used as a coating antigen @ 10 ug/ml
