

Product Datasheet

Anti-Cytokeratins FITC GRP10724

Description	The antibody C-11 reacts with Cytokeratin peptides 4, 5, 6, 8, 10, 13, 18. Cytokeratins are members of intermediate filaments subfamily intracellular proteins represented in epithelial tissues.
Reactivity	Mammalian
Tested Applications	FC
Immunogen	Keratin-enriched preparation from human epidermoid carcinoma cell line A431.
Concentration	1 mg/ml
Storage	Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light. Do not use after expiration date stamped on vial label.
Note	For research use only.
Isotype	Mouse IgG1
Clonality	Monoclonal
Clone ID	C-11
