

## Product Datasheet

### Anti-Hu CD95 Purified Azide Free GRP10781

<b>Description</b>	The antibody UT-1 reacts with an extracellular epitope on CD95 (Fas/APO-1), a 46 kDa glycoprotein of the tumour necrosis factor/nerve growth factor (TNF/NGF) receptor superfamily, expressed on a variety of normal and neoplastic cells. The antibody UT-1 does excellently induce Fas mediated apoptosis, similarly as CH11 antibody.
<b>Reactivity</b>	Human
<b>Tested Applications</b>	FC, FA
<b>Immunogen</b>	HUT-78 human T cell lymphoma cells
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgM
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	UT-1
<b>Uniprot ID</b>	P25445
<b>NCBI</b>	355
