

## Product Datasheet

### Anti-Hu CD62P Purified Low Endotoxin GRP10947

|                            |   |
|----------------------------|---|
| <b>Description</b>         | The antibody AK4 recognizes an extracellular epitope of CD62P (P-selectin), a 140 kD single chain type I transmembrane glycoprotein present in secretory alpha-granules in platelets, in Weibel-Palade bodies in endothelial cells and in megakaryocytes; it is relocated to the plasma membrane upon activation. |
| <b>Reactivity</b>          | Human, Primate  |
| <b>Tested Applications</b> | FC, FA, ICC, IP, WB   |
| <b>Immunogen</b>           | Human platelets   |
| <b>Concentration</b>       | 1 mg/ml   |
| <b>Storage</b>             | Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.   |
| <b>Note</b>                | For research use only.  |
| <b>Isotype</b>             | Mouse IgG1 kappa  |
| <b>Clonality</b>           | Monoclonal  |
| <b>Clone ID</b>            | AK4   |
| <b>Uniprot ID</b>          | P16109  |
| <b>NCBI</b>                | 6403  |
