|                            |                                                                                                                                                                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | The mouse monoclonal antibody L17F12 reacts with an extracellular epitope of CD5, a 67kDa single-chain transmembrane glycoprotein expressed on mature T lymphocytes, most of thymocytes and B lymphocytes subset (B-1a lymphocytes). |
| <b>Reactivity</b>          | Human                                                                                                                                                                                                                                |
| <b>Tested Applications</b> | FC, ICC, IP, WB                                                                                                                                                                                                                      |
| <b>Immunogen</b>           | Human acute lymphoblastic leukemia (ALL) T cells                                                                                                                                                                                     |
| <b>Concentration</b>       | 1 mg/ml                                                                                                                                                                                                                              |
| <b>Storage</b>             | Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.                                                                                                                                                |
| <b>Note</b>                | For research use only.                                                                                                                                                                                                               |
| <b>Isotype</b>             | Mouse IgG2a kappa                                                                                                                                                                                                                    |
| <b>Clonality</b>           | Monoclonal                                                                                                                                                                                                                           |
| <b>Clone ID</b>            | L17F12                                                                                                                                                                                                                               |
| <b>Uniprot ID</b>          | P06127                                                                                                                                                                                                                               |
