

Product Datasheet

Anti-Rt CD4 FITC GRP11161

Description	The mouse monoclonal antibody OX-35 reacts with an extracellular epitope of rat CD4 transmembrane glycoprotein (55 kDa).
Reactivity	Rat
Tested Applications	FC
Immunogen	MLR generated rat Th cells
Concentration	0.5 mg/ml
Storage	Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light. Do not use after expiration date stamped on vial label.
Note	For research use only.
Isotype	Mouse IgG2a kappa
Clonality	Monoclonal
Clone ID	OX-35
Uniprot ID	P05540
NCBI	24932
