

## Product Datasheet

### Anti-Hu CD230 / Prion Purified GRP11418

<b>Description</b>	The mouse monoclonal antibody EM-21 recognizes human prion protein (PrP). Diglycosylated form of PrP has ~ 40 kDa, monoglycosylated form ~ 30 kDa, and nonglycosylated form ~ 19-21 kDa.
<b>Reactivity</b>	Human
<b>Tested Applications</b>	WB
<b>Immunogen</b>	Recombinant human prion protein
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgG2a
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	EM-21
<b>Uniprot ID</b>	P04156
<b>NCBI</b>	5621
