

Product Datasheet

Anti-Ms CD197 PE GRP11497

Description	The rat monoclonal antibody 4B12 recognizes an extracellular epitope of murine CD197 / CCR7 (chemokine receptor 7), a 43 kDa G-protein-coupled receptor for chemokines CCL19 and CCL21.
Reactivity	Mouse
Tested Applications	FC
Immunogen	Murine CD197-transfected RBL-2H3 cells
Concentration	0.5 mg/ml
Storage	Store in the dark at 2-8°C. Do not freeze. Avoid prolonged exposure to light. Do not use after expiration date stamped on vial label.
Note	For research use only.
Isotype	Rat IgG2a kappa
Clonality	Monoclonal
Clone ID	4B12
Uniprot ID	P47774
NCBI	12775
