### Anti-Ms CD11a Purified GRP11760

|                            |                                                                                                                                                                                                                                                                |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>         | The rat monoclonal antibody M17/4 reacts with an extracellular epitope of CD11a (alpha-subunit of murine LFA-1), a 180 kDa type I transmembrane glycoprotein expressed on B and T lymphocytes, monocytes, macrophages, neutrophils, basophils and eosinophils. |
| <b>Reactivity</b>          | Mouse                                                                                                                                                                                                                                                          |
| <b>Tested Applications</b> | FC, IHC-Fr, IP                                                                                                                                                                                                                                                 |
| <b>Immunogen</b>           | C57BL/6 mouse splenic secondary cytotoxic T lymphocytes                                                                                                                                                                                                        |
| <b>Concentration</b>       | 1 mg/ml                                                                                                                                                                                                                                                        |
| <b>Storage</b>             | Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.                                                                                                                                                                          |
| <b>Note</b>                | For research use only.                                                                                                                                                                                                                                         |
| <b>Isotype</b>             | Rat IgG2a                                                                                                                                                                                                                                                      |
| <b>Clonality</b>           | Monoclonal                                                                                                                                                                                                                                                     |
