

Product Datasheet

NCAM 2 - Neural cell adhesion molecule 2 GRP12196

Species/Host	Rabbit
Reactivity	Mouse
Predicted Reactivity	Human, Rat
Tested Applications	WB, IHC
Immunogen	Recombinant polypeptide corresponding to amino acid residues 442-685 of mouse N-CAM O35136
Form/Appearance	Lyophilized in PBS pH 7.4
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please, remember to spin tubes briefly prior to opening them to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tubes.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified IgG
MW	93 kDa
Uniprot ID	O35136
Dilution Range	1 : 500 (IHC), 1 : 1000 (WB)

Application Notes Background: N-CAM 2 is a cell adhesion molecule belonging to the immunoglobulin superfamily. It is differentially expressed in the developing and mature olfactory epithelium and is involved in the guidance of developing olfactory sensory neurons to the glomeruli of the olfactory bulb. Alternative names: RNCAM, OCAM. Reconstitution: For reconstitution add 200 µl of sterile water
