

## Product Datasheet

### Goat anti-Rat IgG (H&L), Affinity purified, Unconjugated, min. cross-reactivity to human, mouse IgG GRP12282

<b>Species/Host</b>	Goat
<b>Form/Appearance</b>	Liquid
<b>Storage</b>	Store at 2-8°C.
<b>Note</b>	For research use only.
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Affinity purified chicken IgY
<b>Dilution Range</b>	The optimal working dilution should be determined by the investigator.

<b>Application Notes</b>	<p>Additional Information: This antibody reacts with the heavy chains on rat IgG and with the light chains on all rat immunoglobulins based on immunoelectrophoresis. Highly cross absorbed against mouse IgG. Minimum cross-reactivity is observed to non- immunoglobulin rat serum proteins based on immunoelectrophoresis. Minimum cross-reactivity is observed to human or mouse IgG based on immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7 and 0.05 % (w/v) sodium azide as preservative. Background: Goat anti-rat IgG (H&amp;L), affinity purified, is unconjugated secondary antibody which binds to all rat IgGs in immunological assays. Antibody is adsorbed against human, mouse IgG and affinity purified using solid phase rat IgG.</p>
