Product Datasheet

Goat anti-Guinea pig IgG (H&L), Affinity purified, Unconjugated, min. cross-reactivity to bovine, chicken, goat, hamster, horse, human, mouse, rabbit, rat, sheep serum **GRP12303**

Goat Species/Host

Form/Appearance Liquid

Storage Store at 2-8°C.

Note For research use only.

Clonality Polyclonal

Affinity purified IgG **Purity**

Dilution Range The optimal working dilution should be determined by the

investigator.

Application Notes Additional Information: This antibody reacts with the heavy chains on guinea pig

IgG and with the light chains on all guinea pig immunoglobulins based on

immunoelectrophoresis. Minimum cross-reactivity is observed to

non-immunoglobulin guinea pig serum proteins or serum from bovine, chicken, goat, guinea pig, hamster, horse, human, mouse, rabbit, or sheep based on immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7, 0.05 % (w/v) sodium azide as preservative.

Background: Goat anti-guinea pig IgG (H&L) is an affinity purified unconjugated secondary antibody which binds to all guinea pig IgGs in immunological assays. Antibody is adsorbed to bovine, chicken, goat, hamster, horse, human, mouse, rabbit, rat, sheep serum and affinity purified using solid phase guinea pig IgG.
