Product Datasheet

Goat anti-Mouse IgG (H&L), F(ab)'2 fragment, Biotin conjugated GRP12322

Species/Host Goat

Form/Appearance Liquid

Storage Store at 2-8°C. Shelf life of this product is one year from date of

receipt.

Note For research use only.

Clonality Polyclonal

Purity Affinity purified IgG

Dilution Range The optimal working dilution should be determined by the

investigator.

Application Notes Additional Information: This antibody reacts with the heavy chains on mouse IgG

and with the light chains on all mouse immunoglobulins based on immunoelectrophoresis. Minimum cross-reactivity is observed to

non-immunoglobulin mouse serum proteins based on

immunoelectrophoresis.Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free and 0.1 % (v/v) Kathon CG is used as preservative. Background: Goat anti-mouse IgG (H&L), biotin conjugated, F(ab)'2 fragment is a secondary antibody which binds to mouse IgGs in immunological assays. Antibody purity is >90% based on SDS-PAGE. Antibody solution may contain small amounts of intact IgG.
