## **Product Datasheet**

Donkey anti-Rabbit IgG (H&L), Biotin conjugated, min. cross-reactivity to bovine, chicken, goat, guinea pig, hamster, horse, human, mouse, rat, sheep IgG GRP12324

Species/Host Donkey

Form/Appearance Liquid

Storage Store at 2-8°C. Shelf life of this product is one year from date of

receipt.

**Note** For research use only.

**Clonality** Polyclonal

Purity Affinity purified IgG

Dilution Range The optimal working dilution should be determined by the

investigator.

Application Notes Additional Information: This antibody reacts with the heavy chains on rabbit IgG

and with the light chains on all rabbit immunoglobulins based on

immunoelectrophoresis. Minimum cross-reactivity is observed to

non-immunoglobulin rabbit serum proteins based on

immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free and 0.1 % (v/v) Kathon CG is used as preservative. Background: Donkey anti-rabbit IgG (H&L) is a biotin conjugated secondary antibody which reacts with all rabbit IgGs in

immunological assays. Antibody is adsorbed to chicken, goat, guinea

pig,hamster,horse,human,mouse,rat and sheep IgG and affinity purified using

solid phase rabbit IgG.
