

## Product Datasheet

### Rabbit anti-Mouse IgG (H&L), Affinity purified, Unconjugated, min. cross-reactivity to human serum GRP12352

<b>Species/Host</b>	Rabbit
<b>Form/Appearance</b>	Liquid
<b>Storage</b>	Store at 2-8°C.
<b>Note</b>	For research use only.
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Affinity purified IgG
<b>Dilution Range</b>	The optimal working dilution should be determined by the investigator.
<b>Application Notes</b>	<p>Additional Information: This antibody reacts with the heavy chains on mouse IgG and with the light chains on all mouse immunoglobulins based on immunoelectrophoresis. Minimum cross-reactivity is observed to non-immunoglobulin mouse serum proteins, or human serum proteins based on immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7, 0.05 % (w/v) sodium azide as preservative.</p> <p>Background: Rabbit anti-mouse IgG (H&amp;L), affinity purified, is a secondary antibody which binds to mouse IgGs in immunological assays. Antibodies are adsorbed against human serum and affinity purified using solid phase mouse IgG.</p>
