Product Datasheet

Goat anti-Rat IgG (H&L), Biotin conjugated **GRP12424**

Species/Host Goat

Form/Appearance Liquid

Storage Store at 2-8°C. Shelf life of this product is one year from date of

receipt.

Note For research use only.

Clonality Polyclonal

Purity Affinity purified IgG

The optimal working dilution should be determined by the **Dilution Range**

investigator.

Application Notes Additional Information: This antibody reacts with the heavy chains on rat IgG and

with the light chains on all rat immunoglobulins based on

immunoelectrophoresis. Minimum cross-reactivity is observed to

non-immunoglobulin rat serum proteins based on

immunoelectrophoresis.Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free and 0.05 % (w/v) sodium azide as preservative. Background: Goat anti-rat IgG (H&L), biotin conjugated is a secondary antibody which binds to rat IgGs in immunological

assays. Antibodies are affinity purified using solid phase rat IgG.
