

## Product Datasheet

### Donkey anti-Rat IgG (H&L), Affinity purified, Unconjugated, min. cross-reactivity to bovine, chicken, goat, guinea pig, hamster, horse, human, mouse, rabbit, sheep IgG GRP12427

<b>Species/Host</b>	Donkey
<b>Form/Appearance</b>	Liquid
<b>Storage</b>	Store at 2-8°C.
<b>Note</b>	For research use only.
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Affinity purified IgG
<b>Dilution Range</b>	The optimal working dilution should be determined by the investigator.

**Application Notes** Additional Information: This antibody reacts with the heavy chains on rat IgG and with the light chains on all rat immunoglobulins. Minimum cross-reactivity is observed to non-immunoglobulin rat serum proteins or IgG from bovine, chicken, goat, guinea pig, hamster, horse, human, mouse, rabbit, or sheep by immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7, 0.05 % (w/v) sodium azide as preservative. 8-12 mg/ml Background: Donkey anti-rat IgG (H&L), affinity purified, is a secondary antibody which binds to rat IgGs in immunological assays. Antibodies are adsorbed against bovine, chicken, goat, guinea pig, hamster, horse, human, mouse, rabbit, sheep IgG and are affinity purified using solid phase rat IgG. Antibody purity is > 95% based on SDS-PAGE.
