

Product Datasheet

Donkey anti-Rabbit IgG (H&L), Unconjugated, min. cross-reactivity to mouse IgG/serum, Affinity purified, Unconjugated GRP12463

Species/Host	Donkey
Form/Appearance	Liquid
Storage	Store at 2-8°C.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified IgG
Dilution Range	The optimal working dilution should be determined by the investigator.
Application Notes	<p>Additional Information: This antibody reacts with the heavy chains on rabbit IgG and with the light chains on all rabbit immunoglobulins based on immunoelectrophoresis. Minimum cross-reactivity is observed with non-immunoglobulin rabbit or mouse serum proteins or mouse IgG based on immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7, 0.05 % (w/v) sodium azide as preservative.</p> <p>Background: Donkey anti-rabbit IgG (H&L), affinity purified is an unconjugated secondary antibody which binds to rabbit IgGs in immunological assays. Antibodies are adsorbed against mouse IgG/serum and affinity purified using solid phase rabbit IgG.</p>
