

Product Datasheet

Goat anti-Human IgM (μ chain), F(ab)'2 fragment, Affinity purified, Unconjugated, min. cross-reactivity to human IgA+IgG GRP12491

Species/Host	Goat
Form/Appearance	Liquid
Storage	Store at 2-8°C.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified IgG, F(ab)'2 fragment
Dilution Range	The optimal working dilution should be determined by the investigator.
Application Notes	Background: Goat anti-human IgM, (μ chain), affinity purified is a F(ab)'2 fragment of an unconjugated, secondary antibody which binds to human IgM in immunological assays. Antibodies are adsorbed against human IgA and IgG and affinity purified. Antibody purity is > 90% based on SDS-PAGE. Antibody solution may contain small amounts of intact IgG.
