

Product Datasheet

Goat anti-Human kappa chain, Affinity purified, Unconjugated GRP12497

Species/Host	Goat
Immunogen	Purified human Kappa (k) Chain BAA37169.1
Form/Appearance	Liquid
Storage	Store at 2-8°C.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified IgG
Dilution Range	The optimal working dilution should be determined by the investigator.
Application Notes	<p>Additional Information: Purity of this preparation is > 95% based on SDS-PAGE. Antibody concentration is > 4.5 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth. Based on immunoelectrophoresis, this antibody reacts with: kappa (k) light chains on human immunoglobulins. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin human serum proteins, heavy chains on human immunoglobulins, lambda light chains on human immunoglobulins. Background: Goat anti-human kappa (k) chain is a secondary antibody which binds to human kappa chain in immunological assays. Antibody is affinity purified using solid phase human kappa chain.</p>
