Product Datasheet

Goat anti-Mouse IgG (H&L), Biotin conjugated, min. cross-reactivity to bovine, horse, human, pig or rabbit serum GRP12517

Species/Host Goat

Immunogen Purified mouse IgG (H&L) AAA51107

Form/Appearance Liquid

Storage Store at 2-8°C. Shelf life is 1 year from date of receipt. Prepare

working dilution prior to use and then discard.

Note For research use only.

Clonality Polyclonal

Purity Affinity purified IgG

Dilution Range This conjugate is suitable for all immunoassay applications. The

optimal working dilution should be determined by the

investigator. Suggested starting dilution(s): 1:2000-1:20 000

(WB) 1:500-1:5000 (IHC)

Application Notes Additional Information: Purity of this preparation is > 95% based on SDS-PAGE.

Antibody concentration is 1.0 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2.1 % (w/v) B, Protease/lgG free. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth.Based on immunoelectrophoresis, this antibody reacts with: heavy chains on mouse lgG, light chains on all mouse immunoglobulins. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin mouse serum proteins, serum proteins from bovine, horse, human, pig, or rabbit. Background: Goat anti-mouse lgG (H&L) is a secondary antibody conjugated to biotin, which binds to mouse lgG (H&L) in immunological assays. Antibody is

affinity purified using solid phaseMouse IgG (H&L).
