

## Product Datasheet

### Rabbit anti-Guinea pig IgG (H&L), Affinity purified, Unconjugated GRP12545

<b>Species/Host</b>	Rabbit
<b>Immunogen</b>	Purified guinea pig IgG (H&L) NP_001166520
<b>Form/Appearance</b>	Liquid
<b>Storage</b>	Store at 2-8°C.
<b>Note</b>	For research use only.
<b>Clonality</b>	Polyclonal
<b>Purity</b>	Affinity purified rabbit IgG
<b>Dilution Range</b>	This antibody is suitable for all immunoassay applications. The optimal working dilution should be determined by the investigator.
<b>Application Notes</b>	<p>Additional Information: Purity of this preparation is &gt; 95% based on SDS-PAGE. Antibody concentration is &gt; 4.5 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth. Based on immunoelectrophoresis, this antibody reacts with: heavy chains on guinea pig, IgG light chains on all guinea pig immunoglobulins. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin guinea pig serum proteins Background: Rabbit anti-guinea pig IgG (H&amp;L) is a secondary antibody which binds to guinea pig IgG (H&amp;L) in immunological assays. Antibody is affinity purified using solid phase guinea pig IgG (H&amp;L).</p>
