

Product Datasheet

Rabbit anti-Human IgM (μ chain), Affinity purified, Unconjugated GRP12555

Species/Host	Rabbit
Immunogen	Purified human IgM (m chain) AAC37537
Form/Appearance	Liquid
Storage	Store at 2-8°C.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified rabbit IgG
Dilution Range	This antibody is suitable for all immunoassay applications. The optimal working dilution should be determined by the investigator.
Application Notes	<p>Additional Information: Purity of this preparation is > 95% based on SDS-PAGE. Antibody concentration is > 4.5 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth. Based on immunoelectrophoresis, this antibody reacts with: heavy chains on human IgM. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin human serum proteins light chains on all human immunoglobulins. Background: Rabbit anti-human IgM (μ chain) is a secondary antibody which binds to human IgM (m chain) in immunological assays. Antibody is affinity purified using solid phase human IgG (H&L).</p>
