

Product Datasheet

Rabbit anti-Llama IgG (H&L), Affinity purified, Unconjugated GRP12560

| | |
|--------------------------|--|
| Species/Host | Rabbit |
| Immunogen | Purified llama IgG (H&L) AAQ19986 |
| Form/Appearance | Liquid |
| Storage | Store at 2-8°C. |
| Note | For research use only. |
| Clonality | Polyclonal |
| Purity | Affinity purified rabbit IgG |
| Dilution Range | This antibody is suitable for all immunoassay applications. The optimal working dilution should be determined by the investigator. |
| Application Notes | <p>Additional Information: Purity of this preparation is > 95% based on SDS-PAGE. Antibody concentration is > 4.5 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth. Based on immunoelectrophoresis, this antibody reacts with: heavy chains on llama IgG, light chains on all llama immunoglobulins. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin llama serum proteins. This antibody will react with VHH of llama IgG's. Background: Rabbit anti-llama IgG (H&L) is a secondary antibody which binds to llama IgG (H&L) in immunological assays. Antibody is affinity purified using solid phase llama IgG (H&L).</p> |
