Product Datasheet

Rabbit anti-Llama IgG (H&L), Biotin conjugated GRP12562

Species/Host Rabbit

Immunogen Purified llama IgG (H&L) AAQ19986

Form/Appearance Liquid

Storage Store at 2-8°C. Shelf life is 1 year from date of receipt. Prepare

working dilution prior to use and then discard.

Note For research use only.

Clonality Polyclonal

Purity Affinity purified rabbit IgG

Dilution Range This conjugate is suitable for all immunoassay applications. The

optimal working dilution should be determined by the

investigator. Suggested starting dilution(s): 1:2000-1:20 000

(WB) 1: 500-1: 5 000 (IHC)

Application Notes Additional Information: Purity of this preparation is > 95% based on SDS-PAGE.

Antibody concentration is 1.0 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2.1 % (w/v) B, Protease/IgG free. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth.Based on immunoelectrophoresis, this antibody reacts with: heavy chains on Ilama IgG, light chains on all llama immunoglobulins. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin Ilama serum proteins. This antibody will react with VHH of Ilama IgG's. Background: Rabbit anti-Ilama IgG (H&L) is a secondary antibody conjugated to biotin, which binds to Ilama IgG in immunological assays. Antibody is affinity purified using

solid phase llama IgG (H&L).
