

Product Datasheet

Rabbit anti-Rat IgG (H&L), Affinity purified, Unconjugated GRP12566

Species/Host	Rabbit
Immunogen	Purified rat IgG (H&L)
Form/Appearance	Liquid
Storage	Store at 2-8°C.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified rabbit IgG
Dilution Range	This antibody is suitable for all immunoassay applications. The optimal working dilution should be determined by the investigator.
Application Notes	<p>Additional Information: Purity of this preparation is > 95% based on SDS-PAGE. Antibody concentration is > 4.5 mg/ml (E 1% at 280 nm = 13.0). Antibody is supplied in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. Contains 0.05% (w/v) sodium azide as preservative of bacterial growth. Based on immunoelectrophoresis, this antibody reacts with: heavy chains on rat IgG, light chains on all rat immunoglobulins. Based on immunoelectrophoresis, no reactivity is observed to: non-immunoglobulin rat serum proteins. Background: Rabbit anti-rat IgG (H&L) is a secondary antibody which binds to rat IgG (H&L) in immunological assays. Antibody is affinity purified using solid phase rat IgG (H&L).</p>
