

Product Datasheet

Goat anti-Human IgA heavy (alpha chain), F(ab)'2 fragment, Biotin conjugated GRP12630

Species/Host	Goat
Reactivity	Human
Predicted Reactivity	Human IgA Heavy (alpha chain) F(ab)'2 fragments
Immunogen	purified human IgA heavy (alpha chain)
Form/Appearance	Liquid
Storage	Store non-diluted antibody at 2-8°C. Shelf life is 1 year from date of receipt.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified goat IgG
Dilution Range	The optimal working dilution should be determined by the investigator.
Application Notes	Additional Information: No reactivity is observed to other immunoglobulins or non-immunoglobulin human serum proteins based on immunoelectrophoresis. Biotin conjugate is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free. Contains 0.05 % (w/v) sodium azide as preservative. Purity is ≥ 90% based on SDS-PAGE. May contain small amounts of intact IgG. Background: Goat anti-human IgA (alpha chain) is a secondary antibody conjugated to biotin which binds to human IgA heavy (alpha chains) F(ab)'2 fragments in immunological assays.
