

Product Datasheet

Goat anti-Human IgE heavy (epsilon chain) Affinity purified, Unconjugated GRP12632

Species/Host	Goat
Reactivity	Human
Predicted Reactivity	Human IgE (epsilon chain)
Tested Applications	ELISA
Immunogen	purified human IgE (epsilon chain)
Form/Appearance	Liquid
Storage	Store at 2-8°C. Shelf life is one year from date of receipt.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified goat IgG
Dilution Range	The optimal working dilution should be determined by the investigator.
Application Notes	Additional Information: No reactivity is observed to the light chains or non-immunoglobulin human serum proteins based on immunoelectrophoresis. Antibody is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 0.05 % (w/v) of Sodium azide as preservative. Antibody concentration is 4.5 mg/ml. Background: Goat anti-human IgE is a secondary antibody which binds to human IgE (ε epsilon chain) in immunological assays.
