Product Datasheet

Goat anti-Human IgG Fc, F(ab)'2 fragment, Biotin conjugated, min. cross-reactivity bovine/mouse/rabbit serum GRP12677

Species/Host Goat

Reactivity Human

Predicted Reactivity Human IgG Fc (two Heavy chains with constant domains) F(ab)'2

fragment

Immunogen Purified human IgG

Form/Appearance Liquid

Storage Store non-diluted antibody at 2-8°C. Shelf life is 1 year from date

of receipt.

Note For research use only.

Clonality Polyclonal

Purity Affinity purified goat IgG

Dilution Range The optimal working dilution should be determined by the

investigator.

Application Notes Additional Information: This antibody reacts with the heavy chains on human IgG

based on immunoelectrophoresis. No reactivity is observed to the light chains on human immunoglobulins, non-immunoglobulin human serum proteins or serum from bovine, mouse, rabbit based on immunoelectrophoresis. Biotin conjugate is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free. Contains 0.05 % (w/v) sodium azide as preservative Background: Goat anti-human IgG Fc (two heavy chains with constant domains) F(ab)'2 fragment is a secondary antibody conjugated to biotin which binds to human IgG Fc (two heavy chains with constant domains) F(ab)'2 fragment in

immunological assays.
