## **Product Datasheet**

## Goat anti-Rabbit IgG Fc, Affinity purified, Unconjugated GRP12702

Species/Host Goat

Reactivity Rabbit

Predicted Reactivity Rabbit IgG Fc part

Tested Applications ELISA

Immunogen Purified Rabbit IgG

Form/Appearance Liquid

**Storage** Store at 2-8°C. Shelf life is one year from date of receipt.

**Note** For research use only.

**Clonality** Polyclonal

Purity Affinity purified goat IgG

**Dilution Range** The optimal working dilution should be determined by the

investigator.

**Application Notes** Additional Information: This antibody reacts with the heavy chains on rabbit IgG

based on immunoelectrophoresis. No reactivity is observed to

non-immunoglobulin rabbit serum proteins and with the light chains of rabbit IgG

based in immunoelectrophoresis. Antibody is provided in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. 0.005 % sodium azide is added as preservative. Antibody concentration is 4.5 mg/ml. Background: Goat anti-rabbit IgG Fc (two heavy chains with constant domains) is a secondary antibody which

binds to rabbit IgG Fc (two heavy chains with constant domains) in

immunological assays.
