

Product Datasheet

Goat anti-Rabbit IgG Fc, Biotin conjugated GRP12703

Species/Host	Goat
Reactivity	Rabbit
Predicted Reactivity	Rabbit IgG Fc (two Heavy chains with constant domains)
Immunogen	Purified Rabbit IgG
Form/Appearance	Liquid
Storage	Store non-diluted antibody at 2-8°C. Shelf life is 1 year from date of receipt.
Note	For research use only.
Clonality	Polyclonal
Purity	Affinity purified goat IgG
Dilution Range	The optimal working dilution should be determined by the investigator.
Application Notes	<p>Additional Information: This antibody reacts with the heavy chains on rabbit IgG based on immunoelectrophoresis. No reactivity is observed to immunoglobulin light chains or non-immunoglobulin rabbit serum proteins based on immunoelectrophoresis. Biotin conjugate is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free. Contains 0.05 % (w/v) sodium azide as preservative. Background: Goat anti-rabbit IgG Fc (two heavy chains with constant domains) is a secondary antibody conjugated to biotin which binds to rabbit IgG Fc (two heavy chains with constant domains) in immunological assays.</p>
