Product Datasheet

Mouse Ig fraction GRP12719

Species/Host Mouse

Form/Appearance Liquid, 0.2 μm filtered

Storage Store at 2-8°C.

Note For research use only.

Purity lg fraction

Application Notes Additional Information: Mouse immunoglobulin fraction is provided in 10 mM

sodium phosphate, 0.15 M sodium chloride, pH 7.2. 0.005 % sodium azide is added as preservative. Concentration is 4.5 mg/ml. Background: Mouse Ig fraction contains total mouse Ig from normal serum, e.g. serum of non immunized animals and is excellent for use as blocking reagent in

immunoassays.
