Product Datasheet

Mouse purified IgG (10 mg) **GRP12720**

Species/Host Mouse

Form/Appearance Liquid, 0.2 µm filtered

Storage Store at 2-8°C.

For research use only. Note

Purity Purified IgG

Additional Information: Mouse IgG is provided in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. 0.05 % sodium azide is added as preservative. This **Application Notes**

immunoglobulin preparation can be used as a negative control for immunoprecipitation (IP). Antibody will react with all IgG subclasses. Background: Purified mouse IgG contains Protein A purified mouse IgG from normal serum, e.g. serum of non immunized animals and is excellent for use as blocking

reagent in immunoassays.
