## **Product Datasheet**

## Donkey anti-Sheep IgG (H&L), HRP conjugated, min. cross-reactivity to human, mouse,rabbit IgG GRP12762

Species/Host Donkey

Form/Appearance Lyophilized

**Storage** Store lyophilized material at 2-8°C.For long time storage after

reconstitution, dilute the antibody solution with glycerol to a final concentration of 50% glycerol and store as liquid at -20°C, to prevent loss of enzymatic activity. For example, if you have reconstituted 1 mg of antibody in 1.1 ml of sterile water add 1.1 ml of glycerol. Such solution will not freeze in -20°C. If you are using a 1:5000 dilution prior to diluting with glycerol, then you would need to use a 1:2500 dilution after adding glycerol. Prepare working dilution prior to use and then discard. Be sure to mix well

but without foaming.

**Note** For research use only.

**Clonality** Polyclonal

**Purity** Affinity purified donkey IgG

**Dilution Range** 1 : 200-1 : 5000 (WB) 1 : 500-1 : 5000 (IHC)

Application Notes Additional Information: This antibody reacts with the heavy chains on sheep IgG

and with the light chains on all sheep immunoglobulins based on immunoelectrophoresis. Minimum cross-reactivity is observed to

non-immunoglobulin sheep serum proteins based on

immunoelectrophoresis. Antibody is supplied in 10 mM sodium phosphate, 150 mM sodium chloride, pH 7.2, 10 % (w/v) BSA, Protease/IgG free and 0.1 % (v/v) Kathon CG is used as preservative. Use of sodium azide will inhibit enzymatic activity of horseradish peroxidase. BSA and milk have to be replaced by other blocking reagents, like doneky serum or commercial formulations which are free from bovine IgG. Background: Donkey anti-sheep IgG (H&L) is a HRP conjugated secondary antibody which binds to sheep IgG (H&L). It is especially adsorbed against human, mouse, rabbit IgG. Antibodies are affinity purified using solid phase sheep IgG. Reconstitution: For reconstitution add 1.1 ml of sterile water. Let it stand 30 minutes at room temperature to dissolve. Prepare fresh working

dilutions daily.
