

Product Datasheet

C-YFP - C-terminal of YFP GRP12772

| | |
|----------------------------|---|
| Species/Host | Rabbit |
| Tested Applications | WB |
| Immunogen | KLH-conjugated synthetic peptide derived from C-terminal of YFP protein. This peptide is conserved in pGWB541 Vector. |
| Form/Appearance | Lyophilized in PBS pH 7.4 |
| Storage | Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please, remember to spin tubes briefly prior to opening them to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tubes. |
| Note | For research use only. |
| Clonality | Polyclonal |
| Purity | Affinity purified serum in PBS, pH 7.4 |
| Dilution Range | 1 : 10 000 (WB) |
| Application Notes | Background: YFP (Yellow Fluorescent Protein) is a genetic mutant of green fluorescent protein (GFP). YFP has an excitation peak at 514 nm and emission peak at 527 nm. Reconstitution: For reconstitution add 50 µl of sterile water. |
