Product Datasheet

Goat anti-Human IgG Fc, min. cross-reactivity to bovine, horse, mouse or rabbit serum proteins or mouse IgG1 GRP13038

Species/Host Goat

Reactivity Human

Immunogen Purified Human IgG, Fc fragment

Form/Appearance Liquid

Storage Store at 2-8 °C.

Note For research use only.

Clonality Polyclonal

Purity Affinity purified

Uniprot ID 075015

Dilution Range The optimal working dilution should be determined by the

investigator.

Application Notes Additional Information: Antibody purity is > 95% based on SDS-PAGE.Affinity

purified using solid phase Human IgG .Antibody is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2. 0.05% (w/v) Sodium Azide is added as a preservative.Based on IEP, this antibody reacts with: • heavy (γ) chains on human IgG .Based on IEP, no reactivity is observed to: • non-immunoglobulin human serum immunoglobulins • light chains on all human immunoglobulins • human IgG F(ab)'2 fragment • mouse IgG1 • serum proteins from bovine, horse, mouse, or rabbit . Background: Goat anti-Human IgG Fc, min. cross-reactivity to bovine, horse, mouse or rabbit serum proteins or mouse IgG1 is a secondary

antibody which binds to human IgG Fc in immunological assays.
