|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Species/Host | Goat |
| Reactivity | Mouse |
| Tested Applications | FC, IL |
| Immunogen | Purified Mouse IgG, whole molecule |
| Form/Appearance | Lyophilized |
| Storage | Store freeze-dried powder at 2-8 °C. |
| Note | For research use only. |
| Clonality | Polyclonal |
| Purity | Affinity purified |
| Dilution Range | 1 : 20-1 : 2000 (Flow cyt), (IL) |
| Application Notes | <p>Additional Information: Antibody purity is > 95% based on SDS-PAGE. Affinity purified using solid phase Mouse IgG. Antibody is supplied in 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free. 0.05% (w/v) Sodium Azide is added as a preservative. Based on IEP, this antibody reacts with:</p> <ul style="list-style-type: none">• heavy (γ) chains on mouse IgG• light chains on all mouse immunoglobulins <p>Based on IEP, no reactivity is observed to:</p> <ul style="list-style-type: none">• non-immunoglobulin mouse serum proteins• bovine, goat, human, rabbit or rat IgG <p>Based on ELISA, this antibody has</p> |
