

Product Datasheet

GUS - Beta-glucuronidase GRP13161

Species/Host	Rabbit
Tested Applications	WB
Immunogen	KLH-conjugated synthetic peptide derived from Escherichia coli GUS protein at amino acid 358.
Form/Appearance	Lyophilized
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please, remember to spin tubes briefly prior to opening them to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tubes.
Note	For research use only.
Clonality	Polyclonal
Purity	Serum
MW	depends upon a MW of a protein which is expressed with GUS
Uniprot ID	P05804
Dilution Range	1 : 10 000 (WB)
Application Notes	Additional Information: This antibody will not work with pCAMBIA vectors due to mutation starting at amino acid position 358. Background: GUS (Beta-glucuronidase) is an enzyme which when incubated with colorless or non-fluorescent substrates, can catalyze reaction of their transformation into coloured or fluorescent products. Reconstitution: For reconstitution add 50 µl of sterile water.
