Product Datasheet

TRF1 - Telomeric repeat-binding factor 1
GRP13164

Species/Host	Mouse
Reactivity	Mouse
Predicted Reactivity	Hamster, Human, Rat, Monkey
Tested Applications	IF, WB
Immunogen	Full-length mouse TRF1.
Form/Appearance	Lyophilized in 30% glycerol
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please, remember to spin tubes briefly prior to opening them to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tubes.
Note	For research use only.
Clonality	Polyclonal
Purity	Serum
MW	48.2 kDa
Uniprot ID	P70371
Dilution Range	1 : 500 (IF), 1 : 2000 (WB)
Application Notes	Background: TRF1 (Telomeric repeat-binding factor 1) is a component of telesome which is involved in the regulation of telomere lenght and protection of chromosomes. TRF1 binds double-stranded 5'-TTAGGG-3' repeat on telomers and negatively regulates the lenght of telomers. Reconstitution: For reconstitution add 35 µl of sterile water.
