

Product Datasheet

TRF1 SYCP3

TRF1 - Telomeric repeat-binding factor 1 GRP13164

Species/Host	Mouse	TRFL
Reactivity	Mouse	$ \mathcal{A}_{i} \geq 1$
Predicted Reactivity	Hamster, Human, Rat, Monkey	
Tested Applications	IF, WB	
Immunogen	Full-length mouse TRF1.	
Form/Appearance	Lyophilized in 30% glycerol	
Storage	Store lyophilized/reconstituted at -20°C; once reconstituted make aliquots to avoid repeated freeze-thaw cycles. Please, remember to spin tubes briefly prior to opening them to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tubes.	
Note	For research use only.	
Clonality	Polyclonal	
Purity	Serum	
MW	48.2 kDa	
Uniprot ID	P70371	
Dilution Range	1:500 (IF), 1:2000 (WB)	
Application Notes	Background: TRF1 (Telomeric repeat-binding factor 1) is a component of telesome which is involved in the regulation of telomere lenght and prot chromosomes. TRF1 binds double-stranded 5'-TTAGGG-3' repeat on telo and negatively regulates the lenght of telomers. Reconstitution: For reconstitution add 35 μ l of sterile water.	ection of
